CODINGAME PROGRAMMER

Activity Type:
Computing / Technology

Date:
June 2020 - Present

Referee:
Ms. Behandish at the English School of Kyrenia

Description:

I regularly visit a website called 'CodinGame'. The developers designed it for programmers to solve the world's most challenging coding problems and even compete with other programmers with fun and enjoyment. Thus, it helped me a lot to enhance my coding and problem-solving skills by teaching me coding techniques such as Bitwise operators, manipulating text, modular arithmetic and much more .
