

Playing the Piano

Activity Type:

Music

Date:

September
2016 - Present

Referee:

Yilmaz Taner (My
piano teacher)

Description:

i have been learning the piano independently since year 7 but I started taking piano lessons in October 2021. To play the piano, a pianist must use both hands, read music, listen to the notes you're playing, and work the pedals. It is a lot to do at once. Subsequently, I became an expert at using my split concentration / divided attention. My multitasking skills in the outside world also greatly improve. Playing for a few minutes a day improves my morale and makes me feel more positive.
